JAF Domus: style overview

JAF Domus is a monolinear sans with rounded terminals. It is derived from our display typeface JAF Domus Titling. While the titling version closely follows the classical Roman proportions, we gave this text version more economical proportions without sacrificing the generous feel of Domus family. The extreme weight variants such as Ultralight and Extrabold make for beautiful or eye-catching headlines whereas the other weights are well suited to longer texts.
